Photograph – received from Councillor Awale Olad within his original representation.

Dear Mr Olad,

I hope you are well. I am unfortunately writing to complain about the presence of Ten Nightclub on High Holborn. I live close by with my wife and young child and almost every weekend we are woken up by shouting, horn beeping and engine revving as people leave the club between 2-5am, despite raising this with the management. I have pictures (taken in the very early hours) to support this - please see attached.

We have also on several occasions found large amounts of glass scattered all around the pavement outside our front door as a result of fights among club patrons and security, causing dangerous shards to be in stuck in pram wheels and shoes.

I fail to see that this naff venue adds anything to the area from either a business or cultural perspective and am of the strong view that it's license should be removed or curtailed as soon as possible.

Happy to discuss.

Thanks
