Thanks Esther

Ryan - can we redate and send notices to clients to re-display as per Esther's dates

Dear Thomas

In this instance, this would be most helpful, thanks. The start date would be from Friday last week when we re-commenced the consultation.

Esther

Dear Thomas

The application was not advertised as is required under the Act. Yes, I can confirm that they do not need to re-advertise in the newspaper but would ask that they kindly leave the pale blue notice in situ.

Many thanks for your understanding in this matter.

Sincerely

Esther

Dear Esther

Thank you for your email.

I'd be most grateful if you could confirm exactly what the administrative error by the Local Authority was that has required the re-advertising.

Secondly I would also be most appreciative if you could confirm that neither the blue notice or newspaper advertisement need to be re-advertised.

I look forward to hearing from you.

With kind regards  
Thomas

Dear Sir/madam

Licensing Act 2003 - Section 17(5) (aa)

Unfortunately, due to an administrative error the Licensing Authority is required to re-advertise your application under the above section of the Licensing Act 2003 and would like to apologise for this. We are required to do this in order to ensure that all statutory steps are taken regarding the advertising and processing of all applications and to bring the application to the attention of the persons who are likely to be affected by it.

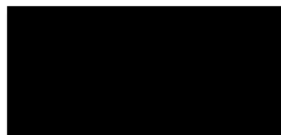

We have checked the hearing schedule for licensing applications and the earliest

date available for a hearing is the 15<sup>th</sup> of June 2023 when it is hoped that your application can be listed for hearing and determination.

I can confirm that application has now been published on our website this morning with a last date of representation date of 2<sup>nd</sup> June, but would take 24 hours for members of the public to be able to view this.

I would like to apologise for the error on our part and any unnecessary delay this may cause.

Sincerely

Esther Jones  
Licensing Team Leader
