

Appendix C

E-scooter and Cycle Hire Bay Map – Phases 1 to 7 & Proposed Phase 8 sites

Key

Icon Colour	Status	Description
	Existing E-scooter and Cycle Hire Bays - Phases 1 to 7	Current operational bays for Hired E-scooter and E-bikes
	Existing E-scooter and Cycle Hire Bays - Phase 8 Extensions	Current operational bays to be increased in size to meet local demand for hire vehicles
	Proposed New Bay location - Phase 8	Locations are based on infilling gaps in the network and data from the hire operators based on high demand locations. This is ensuring all of our communities have easy access to hire vehicles.
	Existing E-scooter and Cycle Hire Bays - Relocations	Bays sometimes need to be relocated for various reasons. In the case of the three sites in phase 8, two are in response to issues raised by holders of dedicated parking bays next to the hire bays being impacted by possible hire vehicle overflow, we are responding to those issues, relocating, and noting a lesson learnt for future site selection. The third site is being relocated following a wider public realm scheme in Princes Circus.

North of Euston Road
