Group contact about application	Stephen Kelly, Chair Threefields Estate TRA
Address	5 Pancras Square
Telephone number	
Email address	
Name of project 3 x H36 Gerda boxes at Threefields estate	
Description of project An LFB security device to be fitted on 3 communal entrance doors across Foxfield and Fairfield at Threefields Estate to prevent the use of the usual LFB key which can be bought cheaply online. This will prevent unauthorised access by non-residents who engage in ASB activities.	
<p>Why is the project needed?</p> <p>At Foxfield on Threefields Estate residents have been complaining of rough sleepers and drug users entering the estate – the other 2 blocks have already got these gerda locks which has displaced activity to this last block. There is also a third door under Fairfield that we had overlooked previously which now needs a box cover.</p> <p>Some comments from residents “They have blocked the fire exit and they are taking the drugs on this fire exit” ‘I don’t feel safe in my home, anytime I need to go out they are there on the stairwell’ ‘I feel like I can’t go out because they’re rude and aggressive’</p>	
Funds held in TRA account	

Method of consultation	Residents have been raising concerns about members of the street population using drugs in communal spaces near their homes		
Number of residents consulted	This proposal has been raised and supported at a number of public meetings including the Regents Park Safer Neighbourhoods Ward Panel. Residents have noticed the co
