

Fire Safety Update

Balcony Safety Tips

Enjoy summer safely on your balcony:

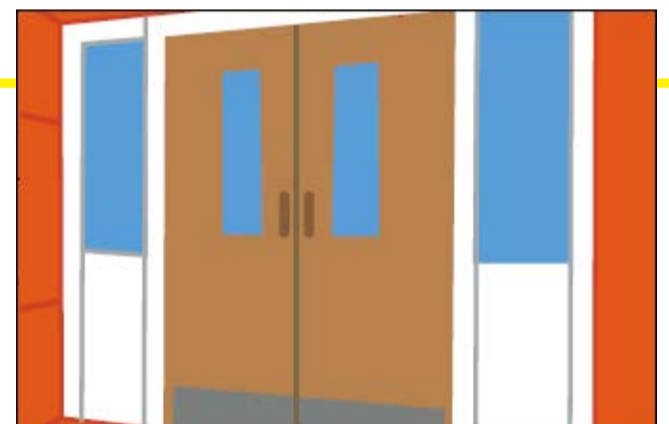

- ✘ **Don't** use balconies as storage areas.
- ✘ **Don't** use a barbecue indoors or on balconies. They can cause fires and carbon monoxide build up.
- ✘ **Don't** throw cigarettes on the floor or out of the window. Put cigarettes out fully.
- ✘ **Never** use or store flammable substances in your home or in shared areas, e.g. petrol, paraffin containers or cylinders, Calor gas, dangerous chemicals or materials.

Keep your Fire Door rating

Fire doors provide protection from flames and can also prevent the spread of smoke in a building. Remember to:

- Keep fire doors shut when not in use.
- Report any fault or damage to a door immediately to the Repairs Team using your Camden Account or by calling **020 7974 4444**.
- Don't replace or change your front door in any way because this could affect how fire resistant it is.
- Don't cut or drill into the door or doorframe.
- Don't paint either side of the door or doorframe.
- Never remove the door's self-closer as this will put the rest of your building at risk if there is a fire in your flat.

Enjoy summer safely

WE ARE SAFER TOGETHER

Fire safety is up to all of us. Play your part.
